Anti-Carbon Soot Destroyer

WHEN THE FIRE BURNS dull and the oven won't bake, the stove smokes, it shows that the chimney is choked with soot, and liable to catch fire at any time. Will you employ a chimney sweep or ANTI-CARBON to clean it? Will you spend an evening taking down your curtains, covering up your furniture and preparing for the chimney sweep; then get up early in the morning, let him in, pay him a dollar or two, and spend the rest of the day in cleaning up the mess he has made; or will you buy a package of Anti-Carbon for a few cents and clean the stove, pipes and chimney yourself in a few minutes without soiling the room.

Enlarging Your Business

If you are in business and you want to make more money you will read every word we have to say. Are you spending your money for advertising in a haphazard fashion as if intended for charity, or do you advertise for direct results?

Did you ever stop to think how your advertising can be made a source of profit to you, and how its value can be measured in dollars and cents. If you have not, you are throwing money away.

Advertising is a modern business necessity, but must be conducted on business principles. If you are not satisfied with your advertising you should set aside a certain amount of money to be spent annually, and then carefully note the effect it has in increasing your volume of business; whether a 10, 20 or 30 per cent increase. If you watch this gain from year to year you will become intensely interested in your advertising, and how you can make it enlarge your business.

If you try this method we believe you will not want to let a single issue of this paper go to press without something from your store.

We will be pleased to have you call on us, and we will take pleasure in explaining our annual contract for so many inches, and how it can be used in whatever amount that seems necessary to you.

If you can sell goods over the counter we can also show you why this paper will best serve your interests when you want to reach the people of this community.
